Jenna Xu xujenna@gmail.com | www.xujenna.com

Full-stack creative, product designer, and technologist specializing in behavior-changing consumer products. Works and thinks in Figma, Claude Code, HTML/CSS, JavaScript, Node, Python, and design systems. Editorial art and design director in another life.

Staff Product Designer @ Mem *02/2025–Present*

Second design hire, leading the 2.0 relaunch and working directly with the founder/CEO to drive product design across web, iOS, macOS, and Windows.

- Led the end-to-end redesign of Mem's first relaunch: a completely transformed visual language and UI, a full experience and information architecture overhaul, complete with design system including semantic variables and dark mode
- Lead product design for net-new capture features from 0 to 1:
    - The world's first agentic web clipper, enabling users to create instant, summarized notes from webpages in a single click
    - End-to-end meetings experience: enabling users in back-to-back schedules to create meeting notes in a single click of a desktop notification
- Shipped a continuous stream of editor and product improvements: PDF viewer, collapsible headers, copy-as-Markdown, rich image interactions, chat model selector, global chat instructions, and smart reminders
- Shipped CSS/frontend fixes directly via GitHub PRs, closing the gap between design and production without engineering bottleneck

Freelance Product Designer @ Various Startups *06/2021–Present*

First or sole design hire for early-stage startups, specializing in 0-to-1 product development across AI coaching, legal tech, mental health benefits, and ADHD intervention products.

- Led design end-to-end — from user research and roadmap definition to shipped product — working cross-functionally with founders, PMs, and engineers
- Drove design strategy to reconcile user needs with business goals, boosting activation, retention, and engagement across client products
- Established design systems in collaboration with engineering

Founder / Product @ docbotic *06/2021–Present*

Co-founded a digital therapeutics startup with clinical colleagues from Mindstrong. Received an SBIR Phase I grant from the NIH to support a clinical partnership with Thomas Jefferson University.

- Prototyped and co-designed Sleepbot, the world's first conversational interface

delivering first-line CBT-I treatment over SMS; in a clinical trial, 50 participants saw a 73% reduction in severe fatigue with 80% daily engagement over 8 weeks

- Led UX research and multiple design iterations informed by interviews and usage data from 3,000+ users across 130+ countries
- Co-designed a depression intervention via clinical partnership with Thomas Jefferson University, currently in trial; also led design of an LLM-enhanced burnout intervention

Design Technologist, R&D @ Mindstrong *11/2020–06/2021*

Formed and led a cross-functional squad of data scientists, clinicians, engineers, and researchers to explore AI applications in clinical tooling.

- Designed and built interactive dashboards for clinical workflow testing, turning passively collected datastreams into actionable insights in collaboration with data science and the VP of Research
- Developed 3-week pilot programs around a predictive sleep data dashboard; integrated clinical voices into the product development process to establish a user- and clinically-centered culture

Senior Product Designer @ Mindstrong *09/2019–11/2020*

- Refreshed Mindstrong's brand identity — persona definition, website redesign, and collateral — in collaboration with the VP of Marketing
- Led a redesign of Mindstrong's research-oriented mobile app: simplified flows and IA to lower barrier of entry for a Medicaid/Medicare SMI population, and built a modular platform for rapid content piloting
- Streamlined the clinical web platform's UX/UI and developed new features to scale for larger caseloads, reduce clinician burnout, and support clinical protocols

Designer/Art Director @ Various Magazines *09/2019–11/2020*

- Refreshed Mindstrong's brand identity — persona definition, website redesign, and collateral — in collaboration with the VP of Marketing

EDUCATION

M.P.S. @ New York University, Interactive Telecommunications Program (ITP) *2019*

Summer School @ Copenhagen Institute of Interaction Design *2017*

B.F.A. @ School of the Art Institute of Chicago *2012*
